# About US

At Orientique, we believe fashion should never shout over the woman wearing it. It should reflect her.

We believe in clothes that feel good against your skin. In prints that tell a story. In fabrics that breathe. In silhouettes that move with you.

We design for the real woman, not the runway. For colour-lovers, comfort-seekers, and those who know that personal style, their style, is the best kind.

And we believe where you buy matters just as much as what you wear.

That the boutique around the corner knows your name, and knows what makes you look and feel amazing.

This isn't fast fashion. This is fashion with feeling.

Thoughtfully designed, ethically made, and only ever found where it belongs.

Naturally you.  
*Exclusively yours.*

ORIENTIQUE®

ORIENTIQUE®

Orientique is a proudly Australian-owned fashion house with more than 40 years of experience creating beautiful, ethically made womenswear. Based in Brisbane and stocked in over 600 Australian boutiques and 2,000 stores worldwide, we are dedicated to supporting independent retailers with fashion that blends creativity, comfort and sustainability.

Designed for real women who want to look and feel fabulous, our collections celebrate individuality through exclusive in-house prints, natural fibres and effortlessly flattering shapes. Every garment is made with care — from plant to finished piece — using organic cottons, sustainable rayons, and linens sourced from some of the world's finest mills. Our signature tag, Orientique Naturally Australian, represents this commitment to quality and environmental responsibility.

Inspired by international design studios and artisan printmakers across Europe, each Orientique collection offers something truly unique. With two seasonal releases each year and a full size range from 8 to 24, we create versatile pieces that fit beautifully and feel even better.

At Orientique, we believe in lasting partnerships, personal service, and helping boutique retailers succeed. Fashion with heart, quality that lasts, and a brand women can truly connect with.

“We are living on the planet like we have another one to go to!”

Terri Swearingen

## A U S T R A L I A N

O rientique is committed to naturality!

Our cotton has the G.O.T.S (Global Organic Textile Standard) certification: this means Orientique Organic Cotton garments are made to the highest fabric quality standards.

Our fabric mills, suppliers and dedicated team in India work hard everyday to ensure we have access to the finest organic cotton fibres.

With Organic Cotton being less than 1% of the world’s cotton production, sourcing fabric takes serious planning, negotiation, and focus.

Orientique Rayon garments are created using Sustainable Rayon. All rayon fibres are sourced from FSC certified forests, this ensures that all timber used to create Orientique rayon comes from responsibly managed forests that provide environmental, social and economical benefits.

In fact every Orientique rayon garment can be traced back to the forest the fibre was sourced from.

Not only is sourcing organic cotton a challenge for most companies, so is maintaining price. In the last 12 months the price of organic cotton has increased up to 40%, primarily due to its demand vs. availability.

At Orientique we believe it shouldn't cost more to do the right thing!

Our business focus is to ensure - you stay in business with the most fashionable collection of exclusive prints in natural fibres at the highest quality.

Welcome to  
Winter 2026!

## FAIR TRADE

Organic certification requires safe working conditions, NO child labour, and fair wages for workers.

## LESS WATER CONSUMPTION

A single NON Organic Cotton T-Shirt requires on average 2,700 litres of water to produce. Organic cotton uses up to **91% less water** to produce.

## SAVES LIVES

NON Organic Cotton crops use an estimated \$2 Billion of chemicals, pesticides and genetically modified organisms each year. Certified Organic Cotton is not treated with any harmful products.

Half of the \$2 billion in chemicals and pesticides used in NON Organic Cotton are designated “TOXIC” by the World Health Organisation.

## SAVES THE PLANET

Cotton is recognised as the “worlds dirtiest crop”.

97% of the worlds cotton is NON Organic. The seeds of which have been genetically modified to produce more and be impervious to chemicals.

25% of the worlds insecticides and 10% of the worlds pesticides are used on NON Organic Cotton.

In Organic Cotton the combination of NO toxic chemicals, pesticides and genetically modified organisms with up to 91% less water consumption helps protect our planet.

The consumption of NON Organic Cotton releases approx. 220 million tonnes of greenhouse gas each year. Organic Cotton creates approx. 46% less CO<sub>2</sub> emissions.

2.6% of the worlds water usage is used to produce NON Organic Cotton.

20% of the Worlds Freshwater pollution comes from textile treatment and dyeing.

The US Fish and Wildlife Service have estimated that pesticides unintentionally kill 67 million birds each year in the US.

As we conducted our research into the transition from Non Organic Cottons to Certified Organic Cottons it became evident that it was not a case of should we do this but how quickly we can do this!

A quote I read whilst researching the impact of chemicals & pesticide inspired me to work faster.

**“We are living on the planet like we have another one to go to”**

We can all make a difference. At Orientique we are proud of the direction we have taken, and are confident our commitment to naturality will support our small business network of customers around the world.

We have more work to do but we won't stop working on producing a better garment for you.

Tom Tindall

# ORIENTIQUE

# ART

**A**n "Orientique" garment is different to most.

We produce fabrics to our specifications, fabric, weight and thread count.

We walk the streets and visit the fashion stores in every major country 6 months before our next season to ensure our collection is on trend.

Our print designs are created by us or our artists in Como, Milan, Paris and London.

Every Orientique print is unique and exclusive to Orientique.

Most are hand paintings or drawings we develop into digital art.

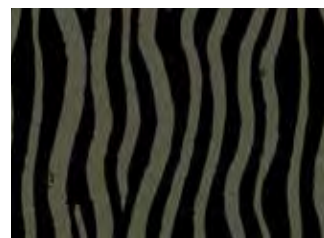

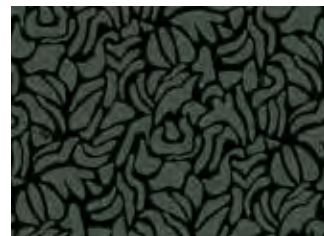

All our prints are screened by hand by artisans that cut screens for each and every colour in each print.

A typical 10 colour print will be hand screened up to 30,000 times to produce the fabric for an Orientique story.

## Kegioa

A captivating tapestry of delicate blossoms, wild creatures, and silhouetted trees captures the poetry of ancient Asia, and our Love for Oriental art!

## Congo

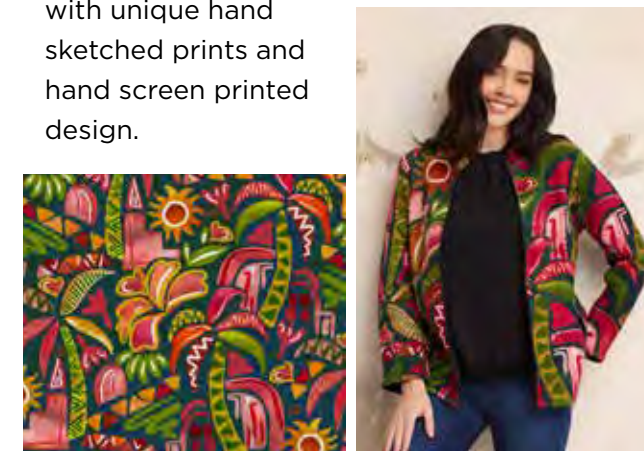

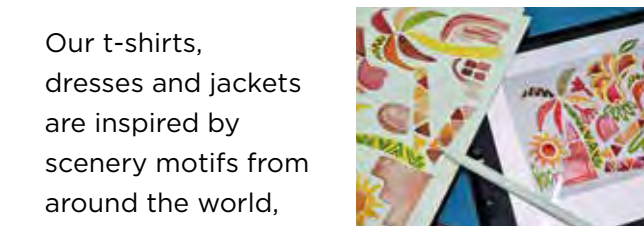

Bold abstract & animal skin inspired motifs, create this unique look in black & olive contrasts.

## Castelo Branco

Abstract floral & bold Organic shapes hand drawn in earthy tones in this dramatic print.

## Floral Fun

Our t-shirts, dresses and jackets are inspired by scenery motifs from around the world, with unique hand sketched prints and hand screen printed design.

# Textile Journey

Around the World

ORIENTIQUE™ W 2026

“Textile Journey Around the World” is a captivating women’s fashion collection that weaves together modern sensibilities with timeless traditional craftsmanship. Inspired by ancient textiles, embroidery, and print techniques from diverse cultures, this collection celebrates the artistry of global heritage.

From intricate Indian block prints to African tribal symbols, and delicate Chinese silk embroidery to vibrant Mexican textiles, each piece tells a story of cultural exchange and appreciation. The collection blends contemporary silhouettes with traditional techniques, creating a unique fusion of old and new.

This collection is a testament to the beauty of cultural diversity and the power of textiles to unite and inspire.

**ORIENTIQUE naturally AUSTRALIAN for Winter 2026.**
